LM mentioned that this was for identification purposes between the Consultant, Planning Officer and SG and would be available at the consultation event. Photos have been taken in preparation of the information boards. AECOM call – (housing needs assessment) – desk based study – uses census data and government data, number of houses, size of houses, etc. Uses rolling terms 2011 to 2020. Concentrate on 3 main things: tenure and affordability (owned, rented) type and size and specialist housing for older people. A figure of 10 – 12 is assumed from consultant (Lee Searle) & Philip Reese based on work done, houses sold etc. Can take up to 12 weeks although Consultant has had one recently through in 6 weeks.
